CAREER OBJECTIVE

Dedicated Computer Science student and Full Stack Developer with a growing interest in Cybersecurity. Currently seeking an industrial attachment to apply my proficiency in Python, React, and Django within a professional environment. I am eager to contribute to real-world software solutions while refining my understanding of system security and IT operations.

EDUCATION

Bachelor of Science in Computer Science

Masinde Muliro University of Science and Technology

2023 – Present

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, SQL

Frontend: React (Vite), HTML5, CSS3, Tailwind CSS

Backend: Django, Django REST Framework

Databases: MySQL, PostgreSQL

Tools & OS: Git/GitHub, Linux (Ubuntu), Windows, VS Code

Networking/Security: Networking Fundamentals, Security Best Practices, OWASP Basics.

KEY PROJECTS

Local Bus Tracking & Booking System | Full-Stack Developer

- Developed a comprehensive system using Django and React featuring distinct portals for commuters, drivers, and administrators.

- Implemented secure user authentication and real-time data handling for booking management.

E-Commerce Interface | Full Stack Developer

- Architected a responsive, high-performance shopping interface using React.
- Focused on UI/UX best practices to ensure seamless navigation across mobile and desktop devices.
- Live Demo: ecommerce-frontend-nine-lemon.vercel.app

Database Design Projects

- Modeled and implemented relational databases using MySQL, focusing on normalization and query optimization.

SOFT SKILLS

- Analytical Problem Solving
- Collaborative Teamwork
- Adaptability
- Effective Communication
